Hello Year 6,

We are delighted you are considering our brilliant school as an option for your secondary school.

Choosing the right school is an important decision as it's where you will learn, grow and complete significant next steps in your lives. We therefore believe our school is a perfect place for this to be achievable, as it provides a supportive, welcoming and safe environment for you to be able to flourish and achieve the best you possibly can.

Starting high school can be particularly stressful and nerve-wracking, but we can assure you, you will always be supported. We have many routes of support available such as The Link, mentoring, your pupil support officer, your head of year and all of our prefects are always available to help when needed. If you choose this school, we are confident that you will always feel welcomed, safe and valued.

At our school, pupils are encouraged to always strive to do their best at all times, whatever their interests or abilities are. We provide a wide range of fantastic opportunities here at Neatherd, including our many clubs such as drone club, cooking club, football, netball, wheelchair basketball and many more. Whatever your interests are, there really is something for everyone.

As well as this, there are so many wonderful trips available, like Iceland, Battlefields and the Netherlands. Speaking from personal experience, these are absolutely brilliant.

Other Neatherd highlights include the delicious school lunches in the canteen - such as the great pizza baguettes on Thursday and the classic Fish and Chips to end your week. Additionally, we also now have a new snack hut being opened soon and you'll get to experience that too.

We hope that after reading this letter, you will take our school into consideration and that you will decide that it's worth your time to come to our school for our Open Evening on Thursday 8th October.

From Amelia, Max and the Senior Pupil Team
